ERIP5-03

Add Scott Flanders

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

OPPOSITION OF THE SKULL VALLEY NUCLEAR WASTE STORAGE FACILITY

Sponsored by: Citizens Against Radioactive Waste in Utah (801-264-1950)

A non-profit and nonpartisan organization

Honorary Board:

Governor Norm Bangert
Senator Jake Garn
Senator Ted Moss
Brent D. Ward
Alberta Mason

Mayor Ted Wilson
Mayor Tom Dolan (Sandy)
Mayor JoAnne Seghini (Midvale)
U.S. Attorney Brent Ward
Judge Henry Clayton

Senator Paula Julander
Senator Millie Peterson
Representative David Jones
Mayor Dan C. Snarr (Murray)
Senator Scott Howell

Jim McConkie
Robert Bradley
Bradley H. Parker
Rep. Ralph Becker
U.S. Rep. Wayne Owens

Kathleen McConkie-
Collinwood
Stephan Studdert
Rocky Navarro

Executive Committee: Chairman: Jim McConkie; Brent D. Ward; Robert Bradley; Rocky Navarro/ Executive Director: Anne Sward Hansen

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

site. Due to the fact that a private company is proposing to operate the facility, there is no Federal funding for any emergency response needs, training, equipment, accidents, etc. It is anticipated that fires in Skull Valley will be increased as a result of the danger posed by the sparks from increased rail traffic and heavy machine use.

The report also states that Utah will receive a stigma as the single largest receptacle of high level nuclear waste in the United States, and that stigma will have a negative impact on our entire economy. It will likely stigmatize our produce, dairy, and other agricultural products as well as our raw land.

Congressman Jim Hansen is officially opposed to the measure because of the many dangers it poses. Hansen states that it is dangerous to store nuclear waste near other high-risk facilities such as Deseret Chemical Depot and Dugway Proving Grounds. Hansen believes the facility will close down at least a part of Hill Air Force Base because of the danger. He also asserts that these actions will be harmful to national security and dangerous to the local population.

The Governor's office lists other dangers with the facility. First, the transportation of the waste is dangerous because the transportation routes pass through Utah's major watersheds. If a canister is damaged or contaminated, the facility will not accept it and will send it back through the state by rail to the original source. This means that leaky canisters will in fact be passing through our critical watersheds and most populous cities. Second, the waste canisters are known to have a propensity to develop hairline cracks and cask-weld fractures and have not been proven safe; these will be stopped at various times in rail yards throughout Utah, including downtown Salt Lake City. Third, there is a potential danger from sabotage accidents.

Fourth, there is a danger because the location has known geologic and seismic problems. Last, there is danger because the facility will be located within a mile of a military bombing range where accidents frequently happen.

NEEDED ACTION:

1. Attend the press conference which will be held on August 21st at 5:30 p.m. at the Little America Hotel in SLC.
2. Attend the U.S. Nuclear Regulatory Commission's final hearings on this matter which will be held on August 21st at the Little America Hotel. One hearing is from 2:00 to 4:00 p.m. and the other is from 6:00 to 9:00 p.m. UAR President Mac Brubaker will be speaking on behalf of the UAR at the 6:00 p.m. hearing. If you would like to speak as a concerned citizen, call Scott Flanders at (301) 415-1172 to be placed on the agenda.
3. Sign the petition attached below, encourage your friends, family and neighbors to do likewise. Bring that petition to either of the hearings on Monday or send them to Citizens Against Radioactive Waste, 4001 S. 700 E. Suite 115, Murray, Utah 87107.
4. If you cannot attend the hearing, send your written comments to all of the following locations: by email to the U.S. Nuclear Regulatory Commission at <mailto://hearingdocket@nrc.gov> or fax at (301)415-1101 AND to Judge G. Paul Bollewerk of the Atomic Safety and Licensing Board Panel at <mailto://gpb@nrc.gov> or fax at (301)415-5599.
