SUBJECT: ACCESS TO GEOTECHNICAL DATA DEVELOPED AT THE NTS FOR
THE WEAPONS PROGRAM

The DOE library located in the Nevada Operations Office (NVO) on Highland in Las Vegas contains all geotechnical reports pertaining to the weapons program at the Nevada Test Site (NTS) that are in the public domain. Reference to these data are on card files, not in a computer. An effort to put these data in the computer for easy access is underway and is expected to be completed in about one year.

I've tried to track down several reported data catalogs put together by using organizations (H&N, USGS) without success.

In discussing this problem with Ms. Cynthia Ortiz, DOE librarian, Ms. Ortiz suggested that Ms. Eileen Chen, NRC (IRM/IRMB) be contacted at 492-8501 and a literature search be requested on "DIALOG". Key words are: 103-EDB and File 6-NTIS data base. This should give access to the data and information needed by the staff.
