Re: Request for Application for a well logging license

Dear Madam or Sir,

We are interested in applying for an NRC well logging license for a new business venture for our company. Please send us any and all information ,including regulations and rules, any updates to those regulations, and an application for the license. Dr. Lee Anthony, with Physicis Associates, will be assisting us in setting up our plan and licensing .

We would appreciate any and all help you might give us and we thank youin advance for your assistance in this matter.

Sincerely,

Marianne H. Skeens
