Richard A. Meserve  
Chairman  
Nuclear Regulatory Commission  
11555 Rockville Pike  
Rockville MD 20785

Dear Chairman Meserve:

I understand that the Nuclear Regulatory Commission is currently working on setting new standards that will allow for the "recycling" of radioactive metals.

Please explain why radioactive "recycling" should be allowed to start again. Who is helped by releasing potentially lethal materials into the environment?

Your prompt response to this request is appreciated.

Very truly yours,

PATSY T. MINK  
Member of Congress
