SUBJECT:

FINAL RULE TO REVISE THE 10 CFR PART 72 LIST OF  
APPROVED SPENT FUEL STORAGE CASKS (FuelSolutions)

Your concurrence is requested on the attached final rule which will amend the list of approved spent fuel storage casks (10 CFR 72.214). The staff is amending its regulations containing the list of approved spent fuel storage cask designs to add a cask system to the "List of approved spent fuel storage casks," under the conditions specified in the Certificate of Compliance (CoC). NRC is approving the BNFL Fuel Solutions FuelSolutions cask system, for storage of spent fuel under the conditions specified in the final CoC. The cask, when used in accordance with the conditions specified in the CoC and NRC regulations, will meet the requirements of 10 CFR Part 72; thus, adequate protection of public health and safety would be ensured. This amendment would allow the holders of power reactor operating licenses to store spent fuel in the BNFL Fuel Solutions FuelSolutions cask system under a general license.
