Dear Mr. Barron:

Your staff identified that the distribution date for our most recent McGuire Inspection Report, 50-369/00-05 and 50-370/00-05, was incorrect. A revised cover letter to reflect the actual October 4, 2000, distribution date for the report is enclosed. Please replace the affected cover letter for the subject inspection report with the one enclosed.

Thank you for pointing out this error. I apologize for any inconvenience it may have caused. If you have any questions about this matter please contact Edwin Lea at (404) 562-4567.

Sincerely,

SUBJECT: MCGUIRE NUCLEAR STATION - NRC INSPECTION REPORT 50-369/00-05  
AND 50-370/00-05

Dear Mr. Barron:

On September 16, 2000, the NRC completed an inspection at your McGuire facility. The enclosed report presents the results of this inspection. The results of the inspection were discussed on September 22, 2000, with Mr. Ken Thomas and other members of your staff.

The inspection was an examination of activities conducted under your licenses as they relate to safety and compliance with the Commission's rules and regulations and with the conditions of your licenses. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of this inspection, the inspectors identified one issue of very low safety significance (Green) which was determined to involve a violation of NRC requirements. However, because of its very low safety significance and because it has been entered into your corrective action program, the NRC is treating this issue as a non-cited violation, in accordance with Section VI.A.1 of the NRC's Enforcement Policy. If you deny this non-cited violation, you should provide a response with the basis for your denial, within 30 days of the date of this inspection report, to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington DC 20555-0001; with copies to the Regional Administrator, Region II; the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-0001; and the NRC Resident Inspector at the McGuire facility.
