Subject: Radioactive Waste

'00 00:11:12:05

AD

Dear Sirs,

I have recently received information from the Nuclear Information and Resource Service informing me that the nuclear power industry intends to recycle its radioactive metals into consumer goods.

It appears that this outrageously unconscious activity is being carried out under the auspices of the NRC

I vehemently oppose this sinister wanton poisoning of the American people and demand that all steps be taken to stop it at once.

Outraged,

Jerry White
1406 Elwha River Road
Port Angeles, WA 98362
