

October 17, 2000

Jay E. Rhoderick, Acting Director
Office of Technical Program Integration
U.S. Department of Energy
Mail Stop EM22 CLOV
19901 Germantown Road
Germantown, MD 20874-1290

Dear Mr. Rhoderick:

This letter is in response to your correspondence dated October 3, 2000, requesting a list of additional sources that have been identified by the U.S. Nuclear Regulatory Commission for the Off-site Source Recovery Program pilot project. My letter addressed to David Huizenga dated October 2, 2000, provided our complete and final list of potential source candidates for this pilot project. Mr. Robert Campbell of your office has recently confirmed that the letter containing the source information has been received by Mr. Huizenga.

I wish to reaffirm our appreciation and support for the Off-site Source Recovery Program pilot project and to the continued progress and reduction of risk to the public health and safety.

If you have any questions concerning this matter, please contact Linda Psyk at (301) 415-0215.

Sincerely,

/RA/
Donald A. Cool, Director
Division of Industrial and
Medical Nuclear Safety
Office of Nuclear Material Safety
and Safeguards
