SUBJECT: MAINTENANCE OF REFERENCE MATERIAL FOR TURKEY POINT LICENSE
RENEWAL APPLICATION AT THE HOMESTEAD BRANCH LIBRARY

Dear Ms. Rist:

In a recent telephone call, you agreed to maintain reference material related to Florida Power and Light's (FPL's) application for renewal of the operating licenses for the Turkey Point Nuclear Plant Units 3 & 4, for an additional 20 years. The Nuclear Regulatory Commission (NRC) is expected to make a decision on the application by early 2003. Enclosed are documents and information related to FPL's application and NRC guidance used by the staff during the environmental review of a license renewal application. Electronic versions of the documents are available at the U.S. Nuclear Regulatory Commission's Public Electronic Reading Room. A CD containing the FPL application is also enclosed. We appreciate your willingness to assist the public in participating in the license renewal process. We have placed the Library on our distribution list for future documents and notices related to the FPL application for Turkey Point.

Thank you again for your cooperation. If you have any questions, you can reach me at (301) 415-1108.

Sincerely,

James H. Wilson, Senior Project Manager/**RA**/
