Docket No. 50-323, OL-DPR-82
Diablo Canyon Units 1 and 2
Revised Schedule for Large Break Loss-of-Coolant
Accident Reanalysis

Dear Commissioners and Staff:

In discussions with the NRC staff on October 18, 2000, regarding the schedule for reanalysis of the large break loss-of-coolant accident (LOCA) required by 10 CFR 50.46, PG&E committed to complete the reanalysis by July 26, 2003. This letter is to confirm this commitment.

Should a requirement to perform a large break LOCA reanalysis for any other reason be identified during this period, PG&E will discuss the schedule for the reanalysis with the NRC staff.

Sincerely,

David H. Oatley
