Dear Mr. Arnold:

The Commission has issued the enclosed Amendment No. 56 to Facility Operating License No. DPR-50 for Three Mile Island Nuclear Station, Unit No. 1. This amendment consists of changes to the Technical Specifications in response to your application and supplemental information dated March 13, 1978.

This amendment revises the Technical Specifications to allow the over-pressure mitigating system as modified to protect the reactor vessel against overpressure during low temperature conditions (<275°F). These modifications consist of ensuring that the high pressure injection valves are closed and installing pressure alarms and low pressure/temperature recording devices.

Copies of the Safety Evaluation and the Notice of Issuance are also enclosed.

Sincerely,

Original signed by
Robert W. Reid

Robert W. Reid, Chief
