Mr. Henry D. Hukill, Vice President
and Director - TMI-1
Metropolitan Edison Company
P. O. Box 480
Middletown, Pennsylvania 17057

Dear Mr. Hukill:

Amendment No. 70 to Facility Operating License No. DPR-50 for Three Mile Island Nuclear Station, Unit No. 1 (TMI-1) was issued by the Commission on July 29, 1981. This amendment does not reflect changes in the Technical Specifications resulting from Amendment No. 68 which was issued on July 20, 1981. The affected Technical Specification sections are 4.1.1 (page 4-7), 4.5.1.1 (pages 4-39 and 4-40) and 4.6.1.b (page 4-46). Amendment No. 68 had changed these pages to require certain tests of the emergency diesel generators be performed prior to Cycle 5 criticality.

In addition, Technical Specification page 4-46 (Section 4.6.1.b) did not explicitly state the frequency interval for conducting the automatic start and loading of the emergency diesel generators. This section should have included the requirement that this test be conducted every refueling interval on each diesel generator. This requirement existed in the Technical Specifications prior to issuance of Amendment No. 70 and was inadvertently omitted.

The above changes in no way affect the conclusions of the Safety Evaluations associated with Amendments Nos. 68 and 70.

You are requested to replace pages 4-7, 4-39, 4-40 and 4-46 with the enclosed pages. We regret any inconvenience which this may have caused you.

Sincerely,
"ORIGINAL SIGNED BY
JOHN F. STOLTZ"

John F. Stolz, Chief
Operating Reactors Branch #4
Division of Licensing
