Subject: Quad Cities Station Security Plan, Revision 49.

In accordance with 10 CFR 50.54 (p)(2), "Conditions of licenses," we are submitting a change to the Commonwealth Edison (ComEd) Company Quad Cities Station Security Plan. In accordance with 10 CFR 50.4(b)(4), "Security plan and related submittals," attached are the original and three (3) copies of Revision 49.

Revision 49 includes the following change:

A change was made to the Security Plan, Section 9, "Entrance Searching," to add clarification regarding the methods used to control material/equipment that is being transferred between generating plant Protected Areas. The change includes an enhanced description of the control devices, storage limitations, and patrol frequencies.

As required by 10 CFR 50.54(p)(2), we have concluded that this change does not decrease the safeguards effectiveness of the Quad Cities Nuclear Power Station Security Plan.

This change to the Quad Cities Station Security Plan was implemented on August 21, 2000. In accordance with 10 CFR 50.54 (p)(2), this change shall be reported within 60 days of implementation, i.e., October 20, 2000.
