Ms. Betty L. Wright
Export/Import Licensing Officer
Office of International Programs
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Ms. Wright,

Subject: Request for extending the validity of Export Licence (XSNM03117)

Please refer to that attached Export Licence, granted on December 20, 1999 for export to Japan of reload fuel for Fukushima II Unit 3 & 4 and Kashiwazaki-kariwa Units 1-5 of Tokyo EPCO (Export Licence No. XSNM03117).

We got a request from JNF, intermediate consignee, that due to change of transport schedule of the nuclear fuel, they need the validity the Export Licence, now February 28, 2001, to be extended. In this regards, we would like your approval to extend the validity until December 31, 2001. In revising the Licence, we would also appreciate it if you would kindly up-date the name of General Electric Company to GNF-A.

Should you have any questions, please kindly contact us.
Your cooperation would be highly appreciated.

Sincerely Yours,

Shuichi Ohashi
Vice President

U.S. NUCLEAR REGULATORY COMMISSION
EXPORT LICENSE

License Number XSNUM03117

Conditions

- Condition 1 - Licensee shall file with the Customs Officer or the Postmaster two copies, in addition to those otherwise required, of the Shipper's Export Declaration covering each export and mark one of such copies for transmittal to the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. The following declaration should accompany or be placed on the Shipper's Export Declarations for such exports:
- "This shipment is being made pursuant to specific license number (specific license number) filed at (location of customs office where license is filed), on (date license was filed). This license expires on (expiration date of license), and the unshipped balance remaining on this license is sufficient to cover the shipment described on this declaration."
- Condition 2 - Exports authorized in any country or destination, except Country Groups Q, S, W, X, Y, and Z in Part 370, Supplement No. 1, of the Comprehensive Export Schedule of the U.S. Department of Commerce.
- Condition 3 - This license covers only the nuclear content of the material.
- Condition 4 - The material to be exported under this license shall be shipped in accordance with the physical protection requirements for special nuclear material in 10 CFR 73.
- Condition 5 - Special nuclear material authorized for export under this license shall not be transported outside the United States in passenger-carrying aircraft in shipments exceeding (1) 20 grams or 20 curies, whichever is less, of plutonium or uranium 233, or (2) 350 grams of uranium 235.
- Condition 6 - This license authorizes export only and does not authorize the receipt, physical possession, or use of the nuclear material.
- Condition 7 - The licensee shall complete and submit an NRC Form 741 for each shipment of source material exported under this license.
- Condition 8 - The licensee shall advise the NRC in the event there is any change in the designation of the company who will package the nuclear material to be exported under this license, or any change in the location of the packaging operation, at least three weeks prior to the scheduled date of export.
