Subject: Comments on NRC Operator Licensing

Below is the result of your feedback form. It was submitted by
Dan Cunningham (cunningh@stolaf.edu) on Sunday, October 15, 2000 at 23:50:53

Comments: Please extend the October 16 deadline on public feedback on the 20 year extension on
reactors.

I think the extension on the reactors is wrong. The waste they produce will destroy the environment, just
so people have a slightly lower electricity bill. DO NOT extend the life of reactors.
