Subject: Comments on NRC License Renewal

Below is the result of your feedback form. It was submitted by Shia Levitt (shialevitt@hotmail.com) on Friday, September 29, 2000 at 20:02:24

Affiliation: concerned citizen, in California

Comments: Please have more transparency in your proceedings. I think you should not make the license renewal any easier for nuclear power or other corporations which have a damaging effect on the environment. I encourage you to go to communities near these facilities, and ask the people there what they think, as well as other environmental scientists. Would you want to live near these nuclear sites?
