Subject: Comments on NRC Operator Licensing

Below is the result of your feedback form. It was submitted by
E.M.T. O'Nan (pace@mcdowell.main.nc.us) on Wednesday, October 4, 2000 at 00:05:25

Affiliation: Director, Protect All Children's Environment

Comments: Please grant an EXTENSION of the Monday October 16, 2000 deadline for public comment regarding the continued risk from Nuclear Reactors. The public should be informed and participate in any decision of this magnitude. 20 Year Extensions of Reactors Around the USA cannot be allowed to happen. Instead of promoting this pollution the NRC has an obligation to protect the American people from further radiation exposures and Nuclear abuses. Enough is enough. The American people as literally sick and tired of the high handed pro industry views of the NRC.

Sincerely,
E.M.T. O'Nan
