Subject: Comments on NRC Operator Licensing

Below is the result of your feedback form. It was submitted by Robin Andrews (randrews@vt.edu) on Friday, October 13, 2000 at 08:36:23

Comments: NRC: I am exceedingly distressed by the apparently real possibility of a generic 20-year extension on the life of reactors and that this change in nuclear plant licensing is made without public hearing.

Please extend the Monday October 16, 2000 deadline for public comment.
