**Subject:** Comments on NRC Operator Licensing

Below is the result of your feedback form. It was submitted by David W. Carr (dcarr@chambersgroupinc.com) on Friday, October 13, 2000 at 16:33:33

Comments: I am concerned about the limited public comment time regarding the government's plan to allow license renewal nation's nuclear reactors instead of decommissioning them allowing approxmately 85 percent of the reactors to live beyond mandatory retirement. It is my understanding that the nuclear industry talked the federal government into allowing a generic 20-year extension on the life of reactors, which I have concerns about. Thank you for taking the time to listen to my comments. Sincerely, David W. Carr Concerned United States Citizen
