

Docket No. 50-334

MAR 1 1 1976

Mr. Earl J. Woolever  
Vice President  
Duquesne Light Company  
435 Sixth Avenue  
Pittsburgh, Pennsylvania 15219

Dear Mr. Woolever:

In accordance with Facility Operating License No. DPR-66, you were required to complete the two items listed in paragraph A of Attachment 1 to the license to the satisfaction of the Commission, prior to heatup after core loading at the Beaver Valley Power Station Unit 1. The license states also that you shall not proceed beyond the specific operating condition without prior written authorization from the Commission.

Our Office of Inspection and Enforcement has verified that you have satisfactorily completed the two items referred to above. Therefore, you are hereby authorized to heatup the plant. Beaver Valley Power Station Unit 1 may be operated in OPERATIONAL MODES 3, 4, 5 and 6 (as defined in Table 1.1 on page 1-6 of Appendix A to the license) for the purpose of testing the facility in accordance with the conditions of the license, including the conditions necessary to accomplish the items specified in paragraph B of Attachment 1 to the license.

Sincerely,

Original Signed by  
Roger S. Boyd

Roger S. Boyd, Director  
Division of Project Management  
Office of Nuclear Reactor Regulation
