Subject: Radioactive soil should be contained and isolated.

Radioactive soils should NOT BE RELEASED or recycled in any way-they should be isolated from the public and the environment. Please help stop the spread of any additional radiation into the environment. Make sure you do your job and keep contaminated soils away from the citizenry and consumers.
thank you for your hard work.

There is a time when the operation of the machine becomes so odious, makes you so sick at heart, that you can't take part; you can't even passively take part, and you've got to put your bodies upon the gears and upon the wheels, upon the levers, upon all the apparatus, and you've got to make it stop. And you've got to indicate to the people who run it, to the people who own it, that unless you're free, the machine will be prevented from working at all!
