Comments: We have received a copy of the draft NUREG-1725 "Human Interaction with Reused Soil: A Literature Search" for comment.

We recommend that two additional resources be investigated before the final report is written.

The Health Physics Society has published the Health Physics Journal from 1958 to the present. A search of the journal database at hpj.netjournals.com using the keyword "soil" yielded 412 entries.

Report No. 129 of The National Council on Radiation Protection and Measurements "Recommended Screening Limits for Contaminated Surface Soil and Review of Factors Relevant to Site Specific Studies" should also be reviewed.

Neither of these two sources were mentioned in the draft document.

If we can be of additional assistance, please contact me at 517-335-8204.
