Dear Mr. Carey:

The Commission has issued the enclosed Orders for the Beaver Valley Power Station, Unit No. 1. The first Order confirms your commitments on TMI related requirements except for Item I.C.6, "Guidance on Procedures for Verifying Correct Performance of Operating Activities." The second Order instructs you to meet the requirements of Item I.C.6 in a timely manner. These Orders are based on your letters dated December 17, 1980, December 31, 1980 and April 1, 1981, committing to implement those requirements set forth in NUREG-0737 for which the staff requested completion before June 30, 1981. Explicit statements of these requirements are set forth in the Attachment to the first Order.

It is the Commission's intent in issuing these Orders to encourage completion of items consistent with the staff's recommended schedule. However, certain of your proposed schedule exceptions are acceptable. Therefore, you should proceed with implementation of these items in accordance with your proposed schedule. Your proposed technical and schedule exceptions for other items contained in NUREG-0737 will be the subject of future correspondence.

Copies of these Orders are being filed with the Office of the Federal Register for publication.

Sincerely,

Steven A. Varga, Chief
