Mr. A. Alan Blind  
Vice President, Nuclear Power  
Consolidated Edison Company  
of New York, Inc.  
Broadway and Bleakley Avenue  
Buchanan, NY 10511

SUBJECT: INDIAN POINT NUCLEAR GENERATING UNIT NO. 2 - CORRECTIONS TO  
AMENDMENT NOS. 205 AND 209 (TAC NO. MB0283)

Dear Mr. Blind:

In a letter dated October 5, 2000, Consolidated Edison Company of New York, Inc. (Con Edison) informed the U.S. Nuclear Regulatory Commission of several typographical errors in the Technical Specifications (TSs) issued with Amendment Nos. 205 and 209 on October 29, 1999, and April 28, 2000, respectively. The Commission issued Amendment Nos. 205 and 209 to Facility Operating License No. DPR-26 for the Indian Point Nuclear Generating Unit No. 2 (IP2). Amendment Nos. 205 and 209 consisted of changes to the TSs in response to Con Edison applications dated April 21, 1999, and March 17, 2000, respectively.

On October 30, 1996, the Commission issued Amendment No. 187 for IP2 that revised, in part, footnote \*4 on TS Table 4.1-1 (page 8 of 8) to change the value for  $T_{\text{cold}}$  specified in this footnote from 350 °F to 381 °F. However, when Amendment No. 205 was issued the value for  $T_{\text{cold}}$  was erroneously changed back to 350 °F since this change to the value in footnote \*4 was not requested in the application.

On June 9, 1999, the Commission issued Amendment No. 201 for IP2 that revised, in part, TS Section 4.13.A.2.e to delete the word "approved." When Amendment No. 209 was issued, the word was included in this TS Section 4.13.A.2.e in error since this change was not requested in the application.

Therefore, corrected TS page 4.13-3 and Table 4.1-1 (page 8 of 8) are provided as replacements for those issued in Amendment Nos. 205 and 209.

A. Blind
