SUBJECT: LICENSING MEETING ON NOVEMBER 21, 2000, TO DISCUSS  
RADIOLOGICAL DECOMMISSIONING OF SENECA ARMY DEPOT ACTIVITY

Dear Colonel Frank:

This is to confirm that a licensing meeting will be held at the NRC Region I Office in King of Prussia, Pennsylvania to discuss the radiological decommissioning of the facilities at the Seneca Army Depot Activity where radioactive materials were used and stored pursuant to the above-listed license. We understand that the Radiation Safety Officer for this license, Mr. John Cleary, will attend this meeting with two representatives from Argonne National Laboratory, who are contractors working on the radiological decommissioning. They should be prepared to discuss the current status of the site, and plans for demonstrating compliance with the NRC's license termination criteria, including the determination of a Derived Concentration Guideline Level (DCGL) for the decommissioning of the facilities.

This licensing meeting is open to the public. It is scheduled to begin at 10:00 a.m. in the DNMS Conference Room. Directions to the Region I Office is enclosed. If you have any questions regarding this meeting, please contact me at (610) 337-5040. Thank you for your cooperation.

Sincerely,
