Comments: How in the world can this be justified. This reused soil does not just affect children which I have 2 of 13 and 7. I also garden and have dogs, cats, etc..... This will affect everyone. How can contaminated soil be good for anyone? How can you guarantee that it will not harm my children,dogs,cats,etc.... I live in Nevada and they have recently found chromium in the water supply that has been there for 20 yrs. The government has already taken far too many chances with everyone's lives and i believe it should stop. I am opposed to the reusing of soil.
