Dear Mr. David Meyer,

I'm writing to say that I find it devastating to learn of your schemes to change the rules so you can deregulate radioactive materials and then re-cycle them for use in society or wherever. Radioactive materials need to be as totally isolated from the environment, society and /or the public as possible. **Please do not betray your trust to PROTECT the environment and people - and all of life, for that matter! Do NOT re-cycle any radioactive soil, or any other radioactive materials**

Sincerely,

*Arunita Keltgen SS RD*
