Subject: Re: Reprint Permission from Nuclear Regulatory Commission

Dr. John Navas
Senior Commissioning Editor
Institute of Physics Publishing

Dear Mr. Navas:

I am responding to your request to obtain permission to reprint certain figures from the publication **Plasma Processing of Materials: Scientific Opportunities and Technological Challenges** (1991). After consulting with our Technical Library staff, I have determined that the above report was not published by the U.S. Nuclear Regulatory Commission. It appears that the report was in fact published by the National Academy Press, which is the publishing arm of the National Research Council located in Washington, DC. The report can be accessed through their web page at www.nap.edu.

Requests to reprint portions of National Academy Press publications can be made online at www.nap.edu/reprint_permission.html or by contacting:

Dick Morris
National Academy Press
2101 Constitution Ave., NW
Washington DC 20418

I trust that this information will prove helpful to you.

Sincerely

/RA/
Norman St. Amour
Office of the General Counsel
U.S. Nuclear Regulatory Commission
