November 9, 2000

Dear Dr. Travers,

Following the approval of the Law for Final Disposal of Specific Radioactive Waste in May 2000, with Japanese Electric Utilities' initiative, we have been making preparations for setting up a new organization to perform disposal activity of HLW. We, therefore, are pleased to inform you that now we have been approved by MITI and formally started as Nuclear Waste Management Organization of Japan (NUMO).

Taking this opportunity, we would like to express our sincere gratitude for your kind cooperation and support extended to us.

From now on, since all in our organization are determined to make every endeavor in accordance with our anticipated objective, i.e., the promotion of final disposal of HLW, we are most grateful if you could allow us to rely on your further guidance and encouragement.

Sincerely yours,

Kazunao Tomon

Chairman

Nuclear Waste Management Organization of Japan (NUMO)

Mita NN Bldg. 2F, 1-23, Shiba 4-chome,
