ATTN: Raynard L. Wharton, Project Manager

Subject: Westinghouse Owners Group
Action from the September 20, 2000 WOG/NRC Meeting (MUHP-6074)

Reference: Summary of Meeting Held on September 20, 2000, With the Westinghouse Owners Group (WOG) to Discuss the WOG's Reactor Coolant Pump (RCP) Seal Leakage Consensus Model for Westinghouse Pressurized Water Reactors (PWRs), from Steve D. Bloom to Stuart A. Richards, October 11, 2000

As an action from the September 20, 2000 WOG/NRC Meeting, (Reference 1), NRC staff informed the WOG that they would look at the BNL report and would determine if they had any issues with the report by the end of October 2000. Having received no response relative to NRC staff issues with the BNL report, the WOG assumes there are none.

If you have any questions/comments regarding this issue, please contact Mr. Paul Pyle of the Westinghouse Owners Group Project Office at 412-374-5673.

Yours truly,

Robert H. Bryan, Chairman
Westinghouse Owners Group
