Subject: Contaminated soil disposal

65 FR 44843

7-19-00

(176)

I heard on the radio you are soliciting public comment on how to re-use contaminated soil from our nuclear power plant sites.

Options included re-use as soil amendments and playground or landfill uses. Who is kidding whom? Contaminated soil, regardless of level of contamination should be treated as hazardous waste and dealt with such that no public exposure can occur! Any other option is patently stupid and not in the interest of public health, safety, & well being.

Sincerely, Bob Glanzman, Seattle, WA.
