Country: USA

Comments: I am strongly opposed to the proposed reuse of radioactive contaminated soil. Exposure to radiation over a long enough period of time has been proven to cause cancer. Can you honestly support your endorsement by having several truckloads of this contaminated soil shoveled under and around their own homes? I would hope common sense and concern for your own families would tell you no. Please don't subject my family, friends and pets to this either.

Submit2: Submit comments
