

MS-2 Initial Exam (8/7/2000)
ROI 2000-17 response

1. Method used was ES-401, Attachment 1
2. Audit and NRC exam generated by two different teams, both used ES401, Attachment 1 method.
3. Of 125 questions 53 were bank, 51 were modified bank, 21 were new.
4. No. of KA's changed is in master exam package and will be faxed to Munro to make it easy for you to find.
5. All questions were reviewed 50 were compared for strict KA match. Only 4 questions were a stretch of the KA. A stretch means they were associated with the KA system or component but not an exact match.
6. There were 12 unacceptable questions, all were revised by changing of stem or distractors or both, with the exception of one that was not changed because the licensee made a reasonable case that the graph coordinates could be incorrectly read and the distractors would then be plausible answers.
