- (b) Teleconference between Calvert Cliffs and NRC Staff, dated December 9, 1999, same subject

In Reference (a), we responded to several questions that the Nuclear Regulatory Commission (NRC) Staff had concerning our Individual Plant Examination of External Events analysis. In our response to Question 3 we stated that we were deferring additional actions until an Electric Power Research Institute project was complete. This issue was further discussed during a teleconference (Reference b) and we committed to let the NRC Staff know when our additional analysis would be completed. We expect to complete our analysis and provide it to the NRC Staff by January 31, 2001.

Should you have questions regarding this matter, we will be pleased to discuss them with you.

Very truly yours,
