NAC International (NAC) hereby provides notification that fabrication/construction of NAC-UMS<sup>®</sup> Universal Storage System components for use at the Maine Yankee Atomic Power Station is continuing to completion of all 64 systems.

The subject fabrication/construction activities for the first 36 systems were initiated in accordance with Reference 2 prior to issuance of the Certificate of Compliance for the NAC-UMS<sup>®</sup> Universal Storage System. Based on the issuance of Reference 4 and the current revision of 10 CFR 72.234(c), the fabrication/construction of the remaining 28 systems will proceed without interruption per NAC's project schedule. All fabrication, inspection and testing activities will continue to be conducted under the NAC Quality Assurance Program (NRC Certificate No. 0018), which meets the requirements of 10 CFR 72, Subpart G, and 10 CFR 71, Subpart H.

The fabricators/constructors of the NAC-UMS<sup>®</sup> System components, as contracted by NAC, are detailed in Attachment 1 of Reference 3.
