Nuclear Regulatory Commission

Dear Gentlemen and women,

I am doing a college seminar project and I'm hoping that you can help me with some information. I need to know evolutionary changes in the ecosystem of the Hudson River, (Estuary Aquatic Biome). Of particular interest is the effects of thermal pollution from the Indian Point Nuclear Power Plant in Buchanan New York. What were the conditions of the waters prior to plant construction and afterwards? What effects have the changes had on the aquatic life forms? any information or sources of information on the Indian Point Plant would be helpful.

Thank you for your time,

Diane C. Swan
