LICENSEE: Vermont Yankee Nuclear Power Corporation (VYNPC)
FACILITY: Vermont Yankee Nuclear Power Station
SUBJECT: SUMMARY OF MEETING WITH VYNPC ON CONTENT, PRIORITY,
AND STATUS OF OUTSTANDING LICENSING ACTIONS

On November 29, 2000, members of the staff met with members of VYNPC (the licensee) to discuss the content, priority, and status of outstanding licensing actions that have been submitted to the staff for action. A list of attendees is provided as an Attachment. There were no viewgraphs or other material provided at the meeting.

The staff requested this meeting so that the new Project Manager (Robert Pulsifer) could be briefed on all outstanding requests from the licensee that required review. The licensee requested that the staff complete its review of several of these submittals prior to the licensee's next refueling outage.

The discussion addressed each of the submittals, the actual need date by the licensee, the priority of each submittal, the status of the review, and the staff's projected review completion date.
