Subject: NAC Submittals

Tim,

First, let me express by personal sympathy to you and your family. My thoughts and prayers have been with you this week. Many of the NAC staff have expressed to me this week, their similar concerns for you and your family.

As a brief summary of the NAC activities/submittals this week:

5/19 Submitted CY-MPC Amendment Request and SAR

5/22 Submitted LWT Ball-Lok Pin & Impact Limiter Alternate Fabrication Amendment Request

5/23 Submitted NAC-MPC FSAR

5/26 Submitted LWT EPRI High Burnup Fuel Rods Amend. RAI Responses [Should be to you on Tuesday]

5/26 Submitted LWT McMaster Fuel Letter Amendment Request [Should be to you on Tuesday]

The UMS-MY Telecon RAI Responses are to be shipped out of here not later than Wednesday, 5/31.

The UMS Transport RAI-1 Responses and revised SAR will be shipped out of here as soon as the Engineering and QA reviews can be completed, probably the end of next week, 6/2, or on Monday, 6/5.

The UMS Storage Rulemaking Public Comment resolution must be addressed in this same timeframe. In conjunction with that, NAC's response to the NRC's letter on NS-4-FR (Holtec's allegation) is in final preparation and will be submitted next week.

I hope this summary is helpful to you.

Tom
