MEMORANDUM TO: Marsha Gamberoni, Chief, Section 1
Project Directorate I
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

FROM: Alexander W. Dromerick, Sr. Project Manager, Section 1 */RA/*
Project Directorate I
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

SUBJECT: TELECON FROM CALVERT COUNTY RESIDENT INFORMING
PROJECT MANAGER THAT LIQUIFIED NATURAL GAS (LNG)
TERMINAL LOCATED AT COVE POINT, MD IS BEING ACTIVATED

On Monday, December 4, 2000, and Tuesday, December 5, 2000, I received calls from Elroy McLeod, a Calvert County resident to inform me that management of the LNG terminal is considering activating the terminal in April 2002. I advised him that I was not aware of this situation and that I would discuss this matter with the licensee to determine if they were aware of this matter.

I also called the licensee to find out if indeed they were aware that management of the LNG terminal were considering activating the terminal. They indicated that all they knew about this was from the newspapers. However, they intend to discuss this matter with the management of the terminal. They also indicated that if this is correct, they will have to review the whole situation to determine what action they would have to take.

Docket Nos. 50-317 and 50-318
