

December 7, 2000

Mr. Oliver D. Kingsley
President, Nuclear Generation Group
Commonwealth Edison Company
ATTN: Regulatory Services
Executive Towers West III
1400 Opus Place, Suite 500
Downers Grove, IL 60515

Dear Mr. Kingsley:

In a telephone conversation on November 30, 2000, between Mr. Dan Snook and Mr. Dell McNeil, arrangements were made for the administration of licensing examinations at the Quad Cities Nuclear Power Station the week of August 6, 2001. In addition, the NRC will make an examination validation visit to your facility the week of July 16, 2001.

Mr. Snook has agreed with our request to have NRC examiners prepare the written and operating tests. This request was made to facilitate certification of a new NRC examiner. The NRC will prepare the examinations based on the guidelines of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 8, Supplement 1, Addendum 1. Your staff will be given an opportunity to review the examinations during the examination validation week of July 16, 2001.

To meet the above schedule, it will be necessary for your staff to furnish the reference materials identified in Attachment 2 of ES-201 by January 29, 2001. Any delay in receiving the required reference materials, or the submission of inadequate or incomplete materials, may cause the examinations to be rescheduled.

A supplementary letter will be sent to the training department approximately 120 days prior to the examination to reconfirm the examination dates and to reconfirm the number of candidates you have in the training program. If you have any questions concerning this information, please contact Dell McNeil of my staff at (630) 829-9737 or me at (630) 829-9733.

Sincerely,

/RA by Jay Hopkins Acting For/

David E. Hills, Chief
Operations Branch
Division of Reactor Safety
