

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

INDIAN POINT NUCLEAR GENERATING UNIT NO. 2

DOCKET NO. 50-247

AMENDMENT TO FACILITY OPERATING LICENSE

License No. DPR-26
Amendment No. 22

Pursuant to a Partial Initial Decision of the Atomic Safety and Licensing Board dated November 30, 1976, the Nuclear Regulatory Commission has amended Facility Operating License DPR-26 to read as follows:

Paragraph 2.E(1)(b):

"(b) The Nuclear Regulatory Commission previously determined that the finality of the May 1, 1979 date for termination of once through cooling was grounded on a schedule under which the applicant, acting with due diligence, obtained all governmental approvals required to proceed with construction of the closed cycle system by December 1, 1975; in the event the applicant had acted with due diligence in seeking such governmental approvals but had not obtained such approvals by December 1, 1975, then the May 1, 1979 date should be postponed accordingly. The Commission has determined that the applicant, acting with due diligence, has obtained all governmental approvals required to proceed with construction of the closed cycle system as of December 1, 1976."

Paragraph 2.E (2):

"(2) Subject to all of the foregoing provisions of this Paragraph 2.E., the Nuclear Regulatory Commission has determined, following review of the document entitled Economic and Environmental Impacts of Alternative Closed-Cycle Cooling Systems for Indian Point Unit No. 2, dated December 1, 1974, that a closed-cycle natural draft, wet cooling tower system is the preferred alternative closed-cycle cooling system for installation at Indian Point Unit No. 2."

NOTICE OF AVAILABILITY OF PARTIAL INITIAL DECISION OF

THE ATOMIC SAFETY AND LICENSING BOARD FOR

THE INDIAN POINT NUCLEAR GENERATING UNIT NO. 2

AND ISSUANCE OF AMENDMENT TO FACILITY OPERATING LICENSE NO. DPR-26

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's Regulations in 10 CFR Part 51, notice is hereby given that a Partial Initial Decision dated November 30, 1976 has been issued by the Atomic Safety and Licensing Board in the above captioned proceeding authorizing issuance of an amended license to the Consolidated Edison Company of New York, Inc., for operation of Indian Point Nuclear Generating Unit No. 2, located in Westchester County, New York.

The Partial Initial Decision is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N. W., Washington, D. C., and in the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York 10548. The Partial Initial Decision is also being made available at the New York State Division of the Budget, State Capitol, Albany, New York 12224, and the Tri-State Regional Planning Commission, 1 World Trade Center, 56 South, New York, New York 10048.

Any decision or action taken by the Atomic Safety and Licensing Board in connection with the Partial Initial Decision may be reviewed by the Atomic Safety and Licensing Appeal Board.

Pursuant to the above mentioned Initial Decision, the Nuclear Regulatory Commission (the Commission) has issued Amendment No. 22 to Facility Operating License DPR-26 to Consolidated Edison Company of New York, Inc., for operation of a pressurized water nuclear reactor known as the Indian Point Nuclear Generating Unit No. 2. The license is amended by changes which state that a natural draft, closed-cycle, wet cooling tower system is the preferred system for installation at Indian Point Unit No. 2 and that the applicant has obtained all governmental approvals required to proceed with construction of the closed cycle system.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the license. The application for the license complies with the standards and requirements of the Act and the Commission's rules and regulations.

The amended license is effective as of its date of issuance and shall expire on October 14, 2006.

Copies of the (1) Partial Initial Decision; (2) Amendment No. to Facility Operating License DPR-26; (3) applicant's Environmental Report on Economic and Environmental Impacts of Alternative Closed-Cycle Cooling Systems for Indian Point Unit No. 2 dated December 1, 1974 and supplements thereto; (4) Final Environmental Statement (NUREG-0042) dated August 1976, are available for public inspection at the above
