Dear Mr. Zarakas:

The Commission has issued the enclosed Amendment No. 28 to Provisional Operating License No. DPR-5 for the Indian Point Station Unit No. 1 and Amendment No. 65 to Facility Operating License No. DPR-26 for the Indian Point Nuclear Generating Unit No. 2 in response to your filing of March 22, 1979, as revised August 13, 1979, March 7, 1980 and April 29, 1980, and your filing of August 17, 1979, as revised August 18, 1980.

The amendments modify License Nos. DPR-5 and DPR-26 to include a requirement to maintain a Safeguards Contingency Plan which was approved by our letter of May 20, 1980 and implemented May 30, 1980. The amendment also includes a requirement to follow a Guard Training and Qualification Plan within 60 days of this approval by the Commission

We have reviewed your Guard Training and Qualification Plan against the requirements of 10 CFR 73.55(b) and general criteria for security personnel set forth in Appendix B of 10 CFR Part 73, and conclude that it is acceptable.

These amendments apply to the Safeguards Contingency Plan and Guard Training and Qualification Plan, and therefore do not authorize a change in the effluent types or total amounts nor an increase in power level, and will not result in any significant environmental impact. Having made this determination, we have further concluded that these amendments involve actions which are insignificant from the standpoint of environmental impact and pursuant to 10 CFR 51.5(d)(4) that an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of these amendments.

Since these amendments apply to the Safeguards Contingency Plan and Guard Training and Qualification Plan, they do not involve significant new safety information of a type not considered by a previous Commission safety review of the facility. They do not involve a significant increase in the probability or consequences of an accident, do not involve a significant

decrease in a safety margin, and therefore do not involve a significant hazards consideration. We have also concluded that there is reasonable assurance that the health and safety of the public will not be endangered by these actions and that the issuance of these amendments will not be inimical to the common defense and security or to the health and safety of the public.

We will continue to withhold your Safeguards Contingency Plan and Guard Training and Qualification Plan and related materials from public disclosure in accordance with the provisions of 10 CFR 2.790(d).

A copy of the Notice of Issuance is also enclosed.

Sincerely,
