Susquehanna Steam Electric Station," dated December 12, 2000.*

Dear Mr. Blough:

The purpose of this letter is to confirm a telephone conversation between you and Mr. George Jones of PPL Susquehanna, LLC (PPL) on December 15, 2000. In that call, PPL requested an extension to two milestones established by the NRC in the referenced letter. The request was made as a result of our need to perform additional reviews of the issue in question, and in recognition of the unavailability of certain personnel due to the holidays.

It is our understanding that you agreed to:

- Extend the decision date to January 4, 2000 for determining whether our response will be in a written form or a request for a predecisional enforcement conference and
- Extend the requested submittal date to January 25, 2001 if the response will be in a written form.

We appreciate your consideration in this matter.

Sincerely,

R. G. Byram
