

Nuclear Regulatory Commission  
Executive Resources Allocation Request for FY 2002/2003

During even-numbered calendar years, each agency must examine its SES needs and submit a written request to OPM for a specific number of SES position authorizations for the two succeeding fiscal years. To facilitate strategic management of the Government's total executive resources pool, OPM uses this same schedule for agency requests for Senior Level (SL) and Scientific/Professional (ST) positions. As part of this same submission, agencies should also identify SES positions for proposed redesignation as "career reserved" or "general," and the reasons for the proposed changes.

Please complete this form, as indicated below, attaching any list of positions proposed for redesignation and the rationale for the change, and return it by **December 31, 2000**, to:

Director, Office of Executive Resources Management  
U. S. Office of Personnel Management  
1900 E Street NW, Room 6484  
Washington, DC 20415-5100

I. Unless you indicate an alternative request in Section II (below), the SES/SL/ST allocation for your agency will be:

- Senior Executive Service (SES) allocation	174
- Senior Level (SL) allocation	0
- Scientific and Professional (ST) allocation	0

(These allocations do NOT include any temporary space authorizations.)

Please review these allocations to verify that your agency can continue to work within these levels. To indicate that your agency accepts these allocations for FY 2002/2003, the agency head or delegated representative should sign below without making any entries in Section II.

II To propose alternative SES, SL, or ST allocations for FY 2002/2003, the agency head or delegated representative must state the specific request(s) and sign below. Early in 2001, OPM will ask for a justification for any requests greater than those shown in Section I.

- Senior Executive Service (SES) allocation	170
- Senior Level (SL) allocation	0
- Scientific and Professional (ST) allocation	0
