Mr. P. W. Sick, Manger  
Nuclear Quality Assurance  
GE Nuclear Energy  
175 Curtner Avenue  
San Jose, CA 95125

SUBJECT: CHANGE TO THE GE NUCLEAR ENERGY QUALITY PROGRAM

We have reviewed the changes to the quality assurance program described in your Licensing Topical Report NEDO-11209-04A, Revision 8, as submitted by your letters dated January 13, 2000 and September 12, 2000. As stated in your letters, the changes reflect organizational changes that do not reduce commitments in the program description previously accepted by the NRC.

We have reviewed these changes and have determined that the quality assurance functions and their required organizational independence have been retained and that the quality assurance program, incorporating these changes, continues to meet the requirements of 10 CFR Part 50, Appendix B.

If you have any question, please contact Mr. Ken Heck of my staff at (301) 415-2682.

Sincerely,
