Gentlemen:

**DOCKET NUMBER 50-483
CALLAWAY PLANT UNIT I
UNION ELECTRIC CO.
FACILITY OPERATING LICENSE NPF-30
PHYSICAL SECURITY PLAN, REVISION 31**

Pursuant to the requirements of 10 CFR 50.54(p), the Union Electric Company furnishes four copies of Revision 31 of the Callaway Plant Physical Security Plan. Distribution of these documents is outlined on the attachment.

Revision 31 reflects the implementation of the Iriscan Biometric Identification System, for identification of personnel prior to their entry into the plant's protected area. This revision corrects minimum staff numbers listed in the "Minimum Staffing" section of the plan, to bring them into agreement with the response force staffing number that was changed in revision 30. This revision also reflects the changes to the vital area compensatory measures already made via procedure changes.

Changes incorporated into this revision are consistent with 10CFR50.54 (p) and do not decrease the effectiveness of the Security Plan.

If you have any questions regarding these documents, please contact M. R. Faulkner at (573) 676-8833.

Very truly yours,

Garry L. Randolph
