UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

MEMORANDUM TO: Donald Cool, Director
Division of Industrial and Medical Nuclear Safety
Office of Nuclear Material Safety and Safeguards

FROM:

A handwritten signature in black ink, appearing to read "Brenda Jo. Shelton".

Brenda Jo. Shelton, Chief
Records Management Branch
Information Management Division
Office of the Chief Information Officer

SUBJECT:

DIRECT FINAL RULE TO AMEND AND REVISE 10 CFR PARTS 34, 36,
AND 39 TO APPROVE THE USE OF NEW DOSIMETRY TECHNOLOGY

The Office of the Chief Information Officer has reviewed the subject direct final rule and concurs in it. Should you require additional information, please contact Tremaine Donnell at 415-7230 or e-mail at TUD.

August 23, 2000

MEMORANDUM TO: Donald A. Cool, Director
Division of Industrial and Medical Nuclear Safety
Office of Nuclear Material Safety and Safeguards

FROM: *Louis B. Piane For*
David L. Meyer, Chief
Rules and Directives Branch
Division of Administrative Services
Office of Administration

SUBJECT: OFFICE CONCURRENCE ON DIRECT FINAL RULE ENTITLED,
"NEW DOSIMETRY TECHNOLOGY"

The Office of Administration concurs on the direct final rule that amends Part 72. We have attached a copy of the package that presents our comments.

When this document is forwarded for publication, please include a 3.5 inch diskette that contains a copy of the document in WordPerfect as part of the transmittal package. The diskette will be forwarded to the OFR and the Government Printing Office for their use in typesetting the document.

A Regulatory History must be created for this direct final rule after it has been published in the *Federal Register*. The Regulatory History should be created in ADAMS. In the profile of each document related to the Regulatory History, use the Regulation Identifier Number (RIN) as the Case/Reference number (RIN-AG21). This will make it easier to combine all the documents into a package under ADAMS after the direct final rule has been published.

If you have any questions, please contact me, 415-7162 (DLM1), or Michael Harrison, 415-6865 (PMH), of the Office of Administration.

FROM: David B. Matthews, Director *Chak Matthews*
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation

SUBJECT: DIRECT FINAL RULE TO AMEND AND REVISE 10 CFR PARTS 34, 36,
AND 39 TO APPROVE THE USE OF NEW PERSONNEL DOSIMETRY
DEVICES

In response to your request dated August 7, 2000, we have reviewed the subject direct final rule. NRR technical reviewers found that the rule as written would have no impact on 10 CFR Part 50 licensees, would be consistent with the intent of 10 CFR Part 20 requirements, and would permit the use of newer dosimetry technology by affected materials licensees.

Some editorial comments have been provided to your staff and are reflected in the attached markup.
