RE: REQUEST FOR MY PERSONAL PAPERS AND BELONGINGS

Dear Mr. Notareus:

In order to defend myself from the District's recent acts of suspension, revocation of site access, and termination I require the immediate return of my personal documents that are located in my office area and on my computer.

The specific documents required are as follows:

- My US and State DOL complaints and supporting evidentiary documentation
- My grievance documentation related to the recent positive discipline actions
- NRC confidential reports including supporting technical evidentiary documents which proves wrongdoing by the District that I was about to report prior to suspension.

Please be informed, that there are confidential NRC documents in my office and on my computer. It is imperative that these documents are not seen by the District.

It is also requested that an extension of the effective date of my termination be made until 8/16/99 be made to allow me adequate time to prepare my defense since I was not allowed access to these documents.

Please call me IMMEDIATELY to make these arrangements.

Sincerely,

James Nelson Saum
