Subject: **Vermont Yankee Nuclear Power Station**
License No. DPR-28 (Docket No. 50-271)
Withdrawal of Technical Specification Proposed Change No. 226

By letter dated December 21, 1999 (BVY 99-160), Vermont Yankee (VY) applied for an amendment to the Vermont Yankee Nuclear Power Station Operating License No. DPR-28. The proposed change was updated with additional submittals dated September 12, 2000 (BVY 00-81) and September 19, 2000 (BVY 00-85). The proposed change would have modified the control rod block instrumentation requirements.

By this letter, VY is withdrawing this proposed change from consideration for a license amendment due to its age and changes necessitated by subsequent license amendments.

If you have any questions concerning this transmittal, please contact Mr. Jeffrey T. Meyer at (802) 258-4105.

Sincerely,

VERMONT YANKEE NUCLEAR POWER CORPORATION
