SUBJECT: CALLAWAY PLANT, UNIT 1 - LICENSEE REQUESTED TECHNICAL
MEETINGS AND CONFERENCE CALLS WITH THE STAFF (TAC NO.
MA8034)

Dear Mr. Randolph:

This letter closes out the staff's work under TAC No. MA8034. The TAC was taken out at your staff's request (see ADAMS Accession No. ML003578613) to cover technical meetings and conference calls with the staff in the calendar year 2000. The TAC covered the following work by the staff:

On Thursday, January 27, 2000, the staff held a conference call with your staff on the planned modification to the governor for the turbine-driven auxiliary feedwater (TD-AFW) pump. The conference call was in place of a meeting on the same subject that was to be held on the same day; however, because of heavy snow fall in the Washington D.C. area on January 24 and 25, 2000, the conference call was held in place of the meeting. A summary of the conference call was issued February 7, 2000.

On Wednesday, August 16, 2000, a meeting was held with the staff on the Strategic Teaming and Resource Sharing - Integrated Regulatory Affairs Group (STARS-IRAG) formed by the licensees of the Callaway Plant, Comanche Peak Steam Electric Station (Units 1 and 2), Diablo Canyon Power Plant (Units 1 and 2), South Texas Project Electric Generating Station (Units 1 and 2), and Wolf Creek Generating Station. A summary of the meeting was issued September 1, 2000.

This letter closes out TAC No. MA8034 and no further staff work will be charged to the TAC. If you have any questions regarding this, please contact me at 301-415 1307, or by e-mail through the internet at jnd@nrc.gov.

Sincerely,

/RA/
